

Instructions of Jamanga

Build the tower up with 3 bricks on each level leaving a small space between each brick. The first player throws the dice and chooses one of the colours shown. They then remove a brick of that colour from the tower and place it on top. The next player takes his turn as before and the game continues until the tower topples “JAMANGA”!

If the game is played by more than two players the player who caused the tower to fall is out. The tower is built up again and the remaining players continue until only one is left (The winner)

Contents

36 Coloured Bricks 18cm x 6cm x 4cm and
1 x Giant Dice 18cm x 18cm Square
